

Middle School Preview

By: Dan and Brian

Today you will hear from sixth grade teacher Mr. Swank. He will be telling us what Unami Middle school will be like because the whole sixth grade will be going there next year. Keep reading to find out what his answers to the questions were.

We asked him a few questions. Our first question was what do you think middle school will be like for us? He answered, "We're going to have to become independent, organized, and responsible individuals to be successful."

The second question that we asked him was, are you happy or sad when you send your kids off to Unami? His answer to that question was, "I am both excited for you to move on and be successful. But I am sad because we spent the year building bonds together."

Our third question was how was it like on your first day in a new school? He answered, "I was both nervous and excited to be in a new school."

Our last question was do you think that our first day will be similar to yours? His answer to that question was, "You will probably be intimidated once you arrive, but you will fit right in."

Thank you for reading this edition of the 221 Intelligencer, middle school preview, this is Dan and Brian. Bye for now!
